"We Provide Environmental Solutions"

COURSE DESCRIPTION

The EIA reports in India face multiple deficiencies in line with the notification despite being prepared as an established tool for the integration of environment and development activities. Introduction of interns for the accreditation of assessment consultants by the EIA Act provided a distinct benefit, improving the delivery, however, solitary project based approach and lack of reflection of proper specific inputs and mitigation measures in environment condition imposed certain a cause of concern. To address the same it is important that practitioners of EIA develop their skills in identification and quantification of impacts on one hand and suggesting appropriate mitigation measures on the other hand. This course will introduce the participants to the process of developing Environment Management Plans as relevant to impact and possible mitigation measures.

This is one of the few courses that give formal training legal, economic, administrative and technical aspects of preparing and/or evaluating environmental impact assessments. Emphasis would be laid on practical and meeting structural and systematic understanding of dynamic nature of EIA.

TARGET GROUP & ELIGIBILITY

Professionals in environmental or related fields who intend to enhance their skills in delivering high-quality EIA's to clients.

Environment, being a multidisciplinary subject, will open up the career of professionals who are or intend to pursue career in EIA or related environmental management fields. However, this is subject to scrutiny of registration form and resolution of applicants and approval of admission by the admission Committee. The decision of the Committee in this regard will be final. Decision of rejection an applicant may re-apply in subsequent years if deemed eligible as to faculty for applicant's background.

COURSE DELIVERY

The course delivery will be in English, however, slides will be made in various language formats.

The course will consist of 16 modules with reference reading material, case studies, exercises and assignments available from GEMI's learning portal for a specified module duration.

COURSE ASSESSMENT

The candidates shall be evaluated during and at the end of the programme through various means as exercises, assignments, projects, formal examination and a case study to make sure that you acquire appropriate knowledge and communication skills, and thereby approach with expertise highly valued by employers. The pass performance shall be 60%. In case you are not successful in this attempt you can appear in another exam session within 3 months from the date of announcement of result by passing an evaluation based Re-entry or U-Raise.

COURSE FEE AND ADMISSION

The course fee is Rs.20,000/- for Indian nationals and US\$20 for International applicants, with discount to students who are last registration fee those who apply in days prior to the Registration Closure Date, and to Women students.

To Register, fill and submit Online Registration Form available on GEMI's website or send it as a mail to Course Coordinator.
